

Vector Pipeline Limited General Partner of Vector Pipeline Limited Partnership 38705 Seven Mile Road Suite 490 Livonia, MI 48152

April 27, 2023 **E-FILED** 

Canada Energy Regulator Suite 210, 517 Tenth Avenue S.W. Calgary, AB T2R 0A8

Attention: Ramona Sladic, Secretary of the Commission

Dear Ms. Sladic:

Re: Vector Pipeline Limited on behalf of Vector Pipeline Limited Partnership ("Vector")

MH-001-2013 Compliance Filing

**Annual Trust Reporting Form and Audited Financial Statements** 

Pursuant to the National Energy Board MH-001-2013 Reasons for Decision, Vector hereby submits the 2022 annual reporting form and 2022 audited financial statements related to its pipeline abandonment trust.

Sincerely,

Tracy Holden

**Enclosures** 

Financial Statements **December 31, 2022**(in thousands of Canadian dollars)

# Independent auditor's report

To the Sponsor and Trustee of Vector Pipelines Abandonment Trust

# **Our opinion**

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets of Vector Pipelines Abandonment Trust (the Trust) as at December 31, 2022 and 2021, and the results of its operations and changes in net assets for the years then ended in accordance with accounting principles generally accepted in the United States of America (US GAAP).

#### What we have audited

The Trust's financial statements comprise:

- the statements of net assets as at December 31, 2022 and 2021;
- the statements of operations and changes in net assets for the years then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

# **Basis for opinion**

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We are independent of the Trust in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada. We have fulfilled our other ethical responsibilities in accordance with these requirements.

# Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

PricewaterhouseCoopers LLP 111-5th Avenue SW, Suite 3100, Calgary, Alberta, Canada T2P 5L3 T: +1 403 509 7500, F: +1 403 781 1825

"PwC" refers to PricewaterhouseCoopers LLP, an Ontario limited liability partnership.

In preparing the financial statements, management is responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Trust's financial reporting process.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Trust's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Trust to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

For the years ended December 31, 2022 and December 31, 2021

(in thousands of Canadian dollars)

# 1 Description of the Trust

Vector Pipelines Abandonment Trust (the Trust) is a Qualifying Environmental Trust established by Vector Pipeline Limited Partnership (Vector) (the Sponsor), also known as the Beneficiary, as per the Income Tax Act (Canada), to collect from shippers and set aside funds and invest such funds to cover estimated future pipeline abandonment costs. This is a requirement for all Canada Energy Regulator (CER) regulated Canadian pipelines. The Trust is set up in accordance with CER's regulatory order MH-001-2013 Reasons for Decision dated May 29, 2014. The Trust is governed by its Trust Indenture (Trust Agreement) dated January 20, 2015 and it commenced operations on January 1, 2015 with no specific term to continue until terminated with the approval of the CER.

The Trust assets are managed by investment managers in accordance with the Trust's Statement of Investment Policies and Procedures (SIPP).

The Canadian Imperial Bank of Commerce was the trustee and administrator of the Trust for 2019. On December 19, 2019, the CER approved the Sponsor's application to appoint The Bank of Nova Scotia Trust Company as the trustee for the Trust and The Bank of Nova Scotia Trust Company took custody of the Trust's assets in January 2020.

## 2 Summary of significant accounting policies

## **Basis of presentation**

These financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (US GAAP). The Trust is considered to be an investment company under US GAAP and follows the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946, Financial Services – Investment Companies (ASC 946).

#### Investment transactions and related investment income

Investment transactions are accounted for on a trade date basis. Realized gains and losses and movements in unrealized gains and losses are recognized in the statement of operations and changes in net assets and determined on an average cost basis.

Interest income is recorded on the accrual basis.

# Realized gains or losses on sale of investments

The realized gains or losses on sale of investments is the difference between the net proceeds received and the average cost of the investment sold.

Notes to the Financial Statements

For the years ended December 31, 2022 and December 31, 2021

(in thousands of Canadian dollars)

#### Financial instruments measured at fair value

The Trust's cash and cash equivalents, and investments are classified as financial instruments that are measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to settle a liability in a transaction between market participants at the measurement date. Transactions that have not been settled are reflected in the statement of net assets as receivables or payables and accrued liabilities. Changes in fair value are recognized in the Trust's statement of operations and changes in net assets.

#### **Contributions receivable**

Contributions receivable are recorded to the extent that either services, on which abandonment charges are applied, have been rendered by the Sponsor or amounts are otherwise due and receivable from the Sponsor pursuant to the Trust Agreement.

### Receivables and payables

All of the Trust's receivables and payables and accrued liabilities are measured at cost and approximate their fair value due to the short period to maturity.

## Withdrawal payments

Distributions or payments from the Trust to a Beneficiary for the reclamation obligation are restricted to the CER's written approval.

### **Use of estimates**

The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### **Taxation**

The liability method of accounting for income tax is followed. Deferred income tax assets and liabilities are recorded based on temporary differences between the tax bases of the assets and liabilities and their carrying value for accounting purposes. Deferred income tax assets and liabilities are measured using the tax rate that is expected to apply when the temporary differences reverse. Any interest and or penalties incurred related to income tax is reflected in income tax. The Trust meets the requirements of a Qualifying Environmental Trust as defined in the Income Tax Act (Canada).

Notes to the Financial Statements

For the years ended December 31, 2022 and December 31, 2021

(in thousands of Canadian dollars)

# 3 Changes in accounting policies

There were no changes in accounting policies during the year ended December 31, 2022.

# 4 Administration expenses

The Administrator is entitled to fees based on a percentage of the Trust's capital value or on a fixed basis depending on the type of service provided. The Administrator is also entitled to reimbursement of all out-of-pocket expenses incurred on behalf of the Trust.

## 5 Risk management and financial instruments

The Trust's investments are governed by the SIPP, which provides investment policies and a framework for risk management. The Trust assets are invested with a diversified asset mix and are largely held in fixed income securities, which provide liquidity and valuation transparency.

The Trust's net assets are subject to the following risks.

### Market price risk

The Trust's net assets are subject to market price risk as a result of movements in the valuation of securities contained in the Trust.

#### Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest rate risk is managed by investing in a long-term diversified asset mix that takes into consideration the economic and capital market outlook and expected volatility of returns. The fixed income securities in the Trust are directly exposed to interest rate risk.

|  |                  | 2022                          |                  | 2021                          |
|--|------------------|-------------------------------|------------------|-------------------------------|
|  | Fair value<br>\$ | Average<br>effective<br>yield | Fair value<br>\$ | Average<br>effective<br>yield |
| Canadian government bonds (maturing 5 to 10 years) Canadian government bonds (maturing after | 77               | 2.50%                         | -                | -                             |
| 10 years)  | 1,101            | 2.91%                         | 1,223            | 3.06%                         |
|  | 1,178            |                               | 1,223            |                               |

### **Credit risk**

Credit risk arises from the possibility that counterparty will be unable to pay its contractual obligations. The SIPP prohibits the Trust from investing in securities other than debt issued by the Government of Canada and a minimum of 95% of the Trust's investments must be held in Government of Canada Bonds. Therefore, the risk of significant credit loss is considered remote.

Notes to the Financial Statements

For the years ended December 31, 2022 and December 31, 2021

(in thousands of Canadian dollars)

### Liquidity risk

Liquidity risk is the risk the Trust may be unable to meet financial obligations in a timely manner at a reasonable cost. This risk is mitigated through asset mix and maintaining appropriate asset liquidity in anticipation of future obligations.

#### Fair value of financial instruments

The Trust categorizes its financial instruments measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement.

A fair value hierarchy of inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Trust. Unobservable inputs reflect the Trust's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

#### Level 1

Level 1 includes assets and liabilities measured at fair value based on unadjusted quoted prices for identical assets and liabilities in active markets that are accessible at the measurement date. An active market for an asset or liability is considered to be a market where transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. The Trust's Level 1 instruments consist of cash and cash equivalents.

#### • Level 2

Level 2 includes assets and liabilities whose valuations are determined using directly or indirectly observable inputs other than quoted prices included within Level 1. Financial instruments in this category are valued using models or other industry standard valuation techniques derived from observable market data. Such valuation techniques include inputs such as quoted forward prices, volatility factors and broker quotes that can be observed or corroborated in the market. The Trust's Level 2 instruments consist of Government of Canada bonds.

#### • Level 3

Level 3 includes assets and liabilities valued based on inputs which are less observable, unavailable or where the observable data does not support a significant portion of the instruments' fair value. Generally, Level 3 valuations are longer dated transactions, occur in less active markets, occur at locations where pricing information is not available or have no binding broker quote to support Level 2 classification. The Trust does not have any instruments valued using Level 3 inputs.

Notes to the Financial Statements

# For the years ended December 31, 2022 and December 31, 2021

(in thousands of Canadian dollars)

The Trust uses the most observable inputs available to estimate the fair value of its financial instruments. When possible, the estimated fair value is based on quoted market prices and, if not available, estimates from third party brokers. The following table summarizes the Trust's financial instruments at fair value.

| December 31,                                    |       | 2022          |       | 2021  |

Notes to the Financial Statements

For the years ended December 31, 2022 and December 31, 2021

(in thousands of Canadian dollars)

## **Unrecognized tax benefits**

The Trust has no unrecognized tax benefits related to uncertain tax positions as at December 31, 2022 and 2021 and no accrued interest or penalties thereon.

# 9 Capital disclosures

The Trust defines capital as all investments including cash and cash equivalents. The Trust's objective is to accumulate assets in a consistent and rational manner over the useful life of the pipeline so that funds are available to meet the pipeline's future pipeline abandonment obligations. The trustee is responsible for ensuring that the assets of the Trust are managed in accordance with the SIPP.

| Dated  |  | april 13   | , 2023                       |

## Note 1

Excludes 1.34% of Abandonment Cost Surcharge revenues retained by Vector Pipelines Limited Partnership for payment of corporate taxes by its partners.

# Note 2

Actual amounts collected from shippers and contributed by pipeline owners were less than the planned case due to lower volumes in 2022.

The actual trust balance is less than planned due to increasing interest rates resulting in unrealized losses in the value of investments at the end of 2022. Vector will evaluate the balance of the trust following the completion of the CER's 2021 ACE and SAM-COM Review to determine if an adjustment to the annual contribution amount is required..
